

ENVIRONMENTAL POLICY

At Safe Rope Access Pty Ltd, we recognise the importance of environmental sustainability and are committed to minimising the environmental impact of our operations. As a provider of rope access, height safety system installation, and building maintenance services, we understand our responsibility to operate in a way that protects natural resources, reduces waste, and promotes a cleaner, safer environment for current and future generations.

We strive to integrate environmental considerations into all aspects of our work, ensuring that compliance and care go hand in hand with productivity and safety.

Our Commitments

As far as reasonably practicable, Safe Rope Access commits to:

- Complying with all applicable environmental laws, regulations, and industry codes of practice.
- Identifying and managing environmental risks associated with our projects and operations.
- Minimising waste generation and promoting responsible recycling, reuse, and disposal practices.
- Reducing resource consumption, including electricity, water, and fuel, across our sites and fleet.
- Preventing pollution by implementing appropriate environmental controls and containment measures.
- Using environmentally responsible materials, products, and work methods wherever feasible.
- Educating and training employees and subcontractors in environmental awareness and sustainable work practices.

Monitoring environmental performance and striving for continual improvement.

Site & Project-Level Practices

On all worksites, Safe Rope Access will:

- Conduct pre-job environmental risk assessments.
- Protect surrounding areas from dust, debris, noise, and contamination.
- Avoid disruption to ecosystems, drainage systems, and heritage areas.
- Store hazardous materials securely and dispose of them according to environmental standards.
- Ensure equipment is maintained to minimise emissions and leaks.

Employee Responsibilities

All employees and subcontractors are expected to:

- Comply with environmental procedures and work instructions.
- Report any environmental hazards, incidents, or near misses.
- Support a culture of environmental responsibility in daily operations.

Management Responsibilities

Safe Rope Access management will:

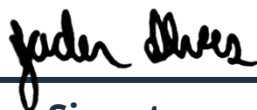

- Provide the resources necessary to implement and maintain this policy.
- Set and review environmental objectives and targets as part of our business planning.
- Lead by example in demonstrating environmental responsibility.

Review this policy periodically to ensure its effectiveness and relevance.

We believe that a proactive approach to environmental management is not only good business practice but a shared responsibility to the communities in which we work. This policy reflects our ongoing commitment to sustainable and responsible service delivery.
